Treasure Hunting: A Deep Dive into the Mysteries of Dental Practice Billing

Here's the description:

Front office billers are master treasurer hunters, slashing through the jungles of claims and collections. But how do these expeditions work? What are the clues to finding buried caches of reimbursements? How much wealth does a practice need to recover in order to keep operations afloat? And, most important of all, how can clinicians heroically assist their treasure-seeking counterparts in this pursuit?

Clinicians and billers unite as we reveal the map, best trails, and markers to exploring and locating the mysteries of the revenue cycle, from cleaning to collection.

Learning Objectives:

- Unravel dental office revenue cycles, including how technology has changed the process.
- Discover about the future of dental office billing, and how to stay current.
- Explore how clinicians can help simplify and expedite reimbursements.
